Art Unit: 2643

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, 14-21, drawn to a directory information retrieval system, classified in class 379, subclass 93.25.
 - II. Claims 10-13, drawn to a voice mail server notification system, classified in class 379, subclass 88.11.
2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together, or they have different modes of operation, or they have different functions, or they have different effects. (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation. The invention I is directed to remotely accessing a database for accessing information directory information, invention II is directed to a voice mail notification system for notifying the user of waiting voice mail messages.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Mr. Joseph J. Kolodka on March 17, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2643

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
